INTERNSHIP 實習機會

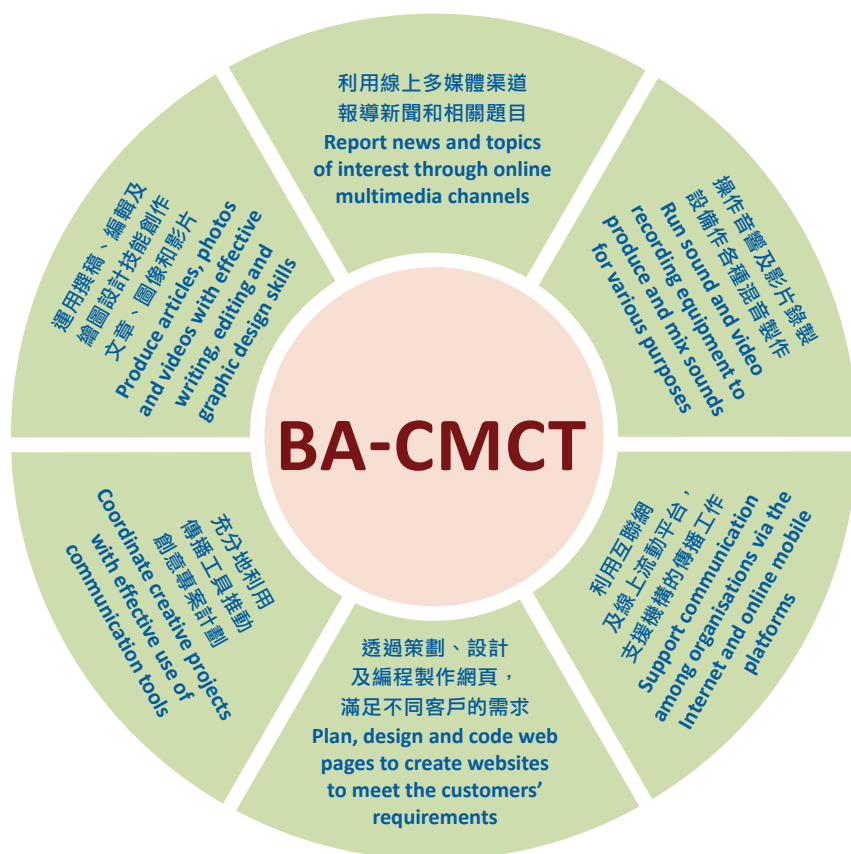

Valuable learning opportunities are provided for students to gain on-the-job training experience through taking “internship” as an elective module in the summer of Year 3, allowing them to apply what they have learnt in classroom and put theory into practice at the workplace of various media and communication organisations. Hence, the employability of students in the job market can be increased with such hands-on experience.

為了讓學生能學以致用，本課程包含了「實習」選修科目。三年級學生將有機會在暑期到各大傳播媒體機構實習，把課堂所學的知識在現實工作中加以實踐，提高學生在職場上的競爭力。

CAREER PROSPECTS 就業前景

Through special interdisciplinary training of convergent media and communication technology that combines theory and practice, a wide spectrum of employment opportunities is open to the BA-CMCT graduates.

課程的特色是把融合媒體及傳播科技的理論和實務加以結合，目的是為畢業生提供更多類型的就業機會。
