## Enriching Student Experience with Exchange and Internship Opportunities 交流及工作實習 讓學習體驗更豐盛

In the last few years, HSUHK embarked on many new collaborations with external parties to provide more internship and overseas exchange opportunities for its students.

For instance, on 10 January 2019, a Memorandum of Understanding was signed with the Hong Kong International Aviation Academy (the Academy) of the Airport Authority Hong Kong to promote and develop aviation related training initiatives which will assist the development of aviation professionals in Hong Kong and strengthen the local manpower for the industry. The first move of the collaboration will be the sharing of air transport related teaching materials and the development of an interactive aviation learning platform. The aviation professionals will share their experience with students of the University's Bachelor of Business Administration (Honours) in Supply Chain Management programme. The Academy will also help source internship places in the airport community and provide professional training for the students who are eager to pursue their career in the field.

The Student Affairs Office (SAO) of HSUHK has been developing new corporate partnerships to expand the University's global internship scheme. In November 2018, the Walt Disney World Resort in Florida, USA, for the first time selected over 20 HSUHK students as its summer interns under its Cultural Exchange Programme. In December 2018, SAO successfully lined up internship placements designated for HSUHK from reputed professional corporations in both Shanghai and Guangzhou. In January 2019, a new internship partner in Seoul, Korea, offered to host HSUHK students for its marketing and PR related projects. These global internship opportunities are invaluable for enhancing the career preparedness of HSUHK students.

Earlier on 6 December 2018, an exchange agreement was signed between the School of Humanities and Social Science of HSUHK, and the Department of Asian, Middle Eastern and Turkish Studies of Stockholm University. The agreement includes the exchange of undergraduate and graduate students as well as activities such as collaborative research, lectures and symposia. All the participating students and scholars will enjoy the opportunities to internationalise their experience. 過去數年,恒大就學生海外交流及工作實 習,不斷拓展與外界機構的合作。

恒大與香港機場管理局轄下香港國際航 空學院(航空學院)於2019年1月10日 簽訂合作備忘錄,雙方致力提升培訓航空 業人才,為本港航空業培訓生力軍。雙方 合作的第一步包括分享與航空運輸相關教 材,開發互動航空學習平台,以及邀請業 界專才與恒大供應鏈管理工商管理(榮譽) 學士課程學生分享經驗。航空學院亦會協 助向機場同業尋求實習機會及專業培訓, 支持恒大學生向航空專業發展。

恒大的學生事務處一直致力拓展全球實 習計劃,與更多機構建立夥伴合作關係。 2018年11月,美國佛羅里達州沃爾特迪 斯尼世界度假村首度挑選20多位恒大學 生,參與該公司的暑期文化交流項目,擔 任暑期實習生。2018年12月,恒大成功 與上海和廣州的知名專業服務公司達成實 習合作方案。2019年1月,一家設於韓國 首爾的公司成為恒大實習合作夥伴,安排 恒大學生參與市務推廣和公關項目。這些 境外工作體驗的機會非常寶貴,讓學生就 業前作好準備。

較早前,恒大的人文社會科學學院與瑞典 斯德哥爾摩大學亞洲、中東及土耳其學系 於2018年12月6日簽署交流協議。是次 學術協作包括大學本科生及研究生交流活 動、研究、講座及研討會,為學生及學者 提供國際交流機會。

President Simon S M Ho believes that these new collaborations will put HSUHK students in a better position in their academic and professional developments. "Overseas exchange and internship programmes are important elements of the University's transformative student experience. Our students will be able to acquire more knowledge and skills through overseas exchange, training and internship experiences." He added that these new collaborations tie in with HSUHK's Strategic Plan 2018-2023, under which the "One Student, One Internship" scheme and the provision of a wide range of studies of foreign languages and cultures are among the distinctive new initiatives.

何順文校長相信這些新協作有助恒大學生 的學術及專業發展。「海外交流和工作實 習是恒大學生的轉化式學習經驗的重要元 素。學生能夠透過海外交流、培訓、實 習等經驗,掌握更多知識及技能。」何校 長並補充,恒大「2018-2023策略發展計 劃」其中兩項新發展亮點為「一學生一實 習」計劃,以及提供多元外語及文化的學 習機會,這些新協作項目正好配合發展。

#### Exchange and Internship Opportunities at HSUHK 恒大提供的交流及實習機會

HSUHK believes that through student exchange programmes with international tertiary institutions, its students can broaden their horizons and gain international exposure. The University has established over 70 partnerships with various educational institutions in Asia, Europe and North America, covering some 25 countries and regions. Many participants found such experience eye-opening and had learned a lot from different cultures.

Meanwhile, internships provide practical work experience for students and are conducive to sharpening their workplace skills, thus enhancing their employability. In academic year 2017/18, more than 1,000 students participated in diverse internship programmes with over 1,100 internships offered by more than 300 companies/ internship schemes. The internships took place not only in Hong Kong, but also mainland China and overseas countries such as Australia, Cambodia, Germany, Indonesia, Japan, Singapore, Thailand, Malaysia, USA and the UK. The participating students had a smooth adaptation to the new environment during their internship period while their positive attitude and outstanding performance were highly commended by their employers. 恒大相信與國際高等院校合作舉行交流計 劃,學生可藉此獲得寶貴的海外經驗,擴闊 視野。恒大與亞洲、歐洲及北美洲超過70 間大專院校建立合作夥伴關係,遍及約25 個國家及地區。許多參與計劃的學生認為這 些經驗讓他們眼界大開,也可從不同的文化 學習,獲益良多。

此外,實習計劃讓學生親身體驗工作情況, 有助他們鍛煉工作技能,增強就業競爭力。 在2017/18 學年,1,000 多名恒大學生參與 超過300 家公司/實習項目提供的1,100 多 個實習職位。除了本地實習,學生的實習機 會也遍及中國內地及海外國家,例如澳洲、 柬埔寨、德國、印尼、日本、新加坡、泰 國、馬來西亞、美國、英國等。恒大學生身 處異地也易於適應環境。他們積極的態度和 傑出工作表現,備受僱主讚揚。

My host institution, EDC Paris Business School, is one of the oldest business schools in France. My school life there had been a great journey, from getting to know the exchange students, locals, teachers, to building a strong relationship with each other. I took part in a Markstrat Simulation in-class competition. We had many ups and downs in our business company. However, the important element I have learned is the way we have trusted each other and managed to get the second position despite having a bad start.

我前往交流學習的 EDC Paris Business School 是法國其中一家歷史最悠久的商學院校。這次學習旅程很精彩,期間認識 了許多交流生、當地人和老師,跟他們建立緊密關係。我參加了一項班際商業策略模擬比賽,所成立的公司面對不少高低 起伏;然而,期間我領略一個重點,就是如何互相信任。雖然開始時不太順利,我們最終仍可獲得第二名。

It was a great experience working at the Centre for Innovation in Transport in Spain. As an intern, I helped conduct research and draft the Centre's newsletters. I learned a lot about public transportation around the world - how various systems work and affect people's daily lives. The sunny weather, passionate people, friendly colleagues and tasty tapas there made for a truly unforgettable experience. An extra bonus was that my Spanish had been greatly enhanced.

Grow and Advance with Information Technology 與資訊科技同步成長、邁進

Interview with Professor Poon Chung Keung Professor and Head of Department of Computing 電子計算系系主任及教授 潘忠強教授專訪

Professor Poon Chung Keung joined The Hang Seng University of Hong Kong (HSUHK) in August 2018. In an interview, he recalled his interesting and rewarding journey in learning and teaching information technology. Professor Poon's first encounter with information technology can be dated back to his secondary school period, "Computer study was taught when I was a Form 4 student. I was fortunate to have a good teacher who had aroused my interest in this subject. At university, I majored in engineering under which there was a computer engineering stream. I studied many interesting courses such as data structure, analysis of algorithm, etc. Again, I met some inspiring teachers who had helped broaden my horizon in this field."

To the laymen, the world of information technology is full of possibility and creation, and therefore one day one can solve any problem with computers. Is this 100% true? Professor Poon laughed and said, "Information technology is very interesting. When talking about the interaction between computer and human being, I would say the two are linked by a tool called 'programming'. Just like chatting with our friends but in another language, we give instructions and the computer tailor makes what we imagine according to its capacity. Viewed in this way, computer indeed may not be as smart as we suppose. A smart move is to make the best out of information technology."

Information technology is a global subject with its applications continuing to expand. What are the clues to fully utilise this technology in learning? Professor Poon gave his views, "Nowadays, learning is no longer confined to classroom. The widespread use of Internet not only has extended the knowledge boundary to a very great extent, but also makes the transfer of information instant. In the Internet world, we can get access to enormous information. A major issue, however, is an overflow of information which requires more efforts in selection and verification. As a teacher, what we have learned in the past is definitely not sufficient. We have to keep on learning, too."

Interacting with students is both joyful and rewarding. 與學生互動,既開心,也有意義。

潘忠強教授於2018年8月加入恒大。訪問期間,潘 教授回憶修讀和教導資訊科技的經歷,既有趣,亦 豐盛。他跟資訊科技結緣,始於中學年代。「首次 上電腦課是中四學年,慶幸有一位好老師喚起我對 學習電腦的興趣。大學階段修讀電機及電子工程, 當中包括電腦工程科,我修讀了許多有趣的課程, 例如數據結構、演算法分析等。得到老師們啟發, 令我眼界大開。」

門外漢眼中的資訊科技世界滿載無限可能,創意無 窮;因此,最終可以利用電腦解決任何難題。實情 是否如此?潘教授笑說:「資訊科技蠻有趣的。至 於電腦跟人類的互動,我認為兩者是透過稱為『程 式』的工具聯繫起來;一如跟朋友談話,只是透過 另一種語言而已。我們發出指令,電腦便按本身的 能力為我們所想像的作出設定。按照這個想法,電 腦事實上也許並非大家想像般聰明;反而,能夠善 用資訊科技才是明智之舉。」

資訊科技是全球共通的科目,應用範疇不斷擴展。 學習時應如何善用這門科技?潘教授抒發己見:「今 時今日,學習早已不侷限於課堂。互聯網的廣泛應 用不單大大拓闊知識領域,也令資訊流通更加即時。 我們在互聯網世界獲取大量資訊,然而,資訊氾濫 又成為重大問題,需要懂得選取和查證。身為老師, 我們從前所學並不足夠,也必須持續學習。」

潘教授深信喚起學生的學習興趣和熱誠非常重要, 可增進學習體驗。教學時,他也不忘檢討和調整, 與時並進。「授課完畢後,我會嘗試評估學生吸收 多少,能否理解學習重點所在。若要持續提升,需 要不時調整教材和教學方法。」

While believing that arousing interest and passion among the students is essential in enhancing their learning experience, Professor Poon also reviews and modifies his teaching to keep up with the times. "After lessons, I will try to assess how far the students have absorbed what had been taught, and whether they can get to the core of the subject. Adjustments to teaching methods and materials are needed for progressive improvement."

A new joiner to HSUHK, what opportunities and challenges does he find at the University? Professor Poon shared, "I am glad to be a member of the HSUHK family at this important milestone. For the study in information technology, the sky is the limit. Information technology as a major has been available at HSUHK only for a couple of years. There is much room for expansion and development considering that technologies advance every day. Besides, consideration on the inclusion of humanity elements is also essential as the use of computer is not limited to communication, but also for solving problems for human. For instance, the major purpose of STEM (which stands for science, technology, engineering and mathematics, and in which information technology is an important component) education is to teach the four disciplines not as separate and discrete subjects, but to integrate them into a cohesive learning paradigm based on real-world applications. All in all, there's great development potential for this subject."

As far as challenges are concerned, Professor Poon thinks that better planning can ensure that our academic programme contents can tie in with the needs of the students and the society as a whole when new technologies emerge from time to time, for example, Al and deep learning. "To enrich students' learning experiences, greater focus has to be put on internship and overseas exchange," he added.

Professor Poon remarked that there is a global search for information technology talents. While there is no territorial boundary in headhunting talents, their strengths and edges can be fully demonstrated through different channels, such as taking part in international competitions.

For prospective talents in this field, what pieces of advice would Professor Poon give them? "I would like to recall my experience while studying in Toronto. I was impressed not only by the multicultural environment, but also the way students pursued their study. They delved into their areas of interest and needed not compare or compete with others. Learning was definitely for self-fulfilment. I came to conclude that I should focus on what I am interested and talented in. Hope that every student can find out his/her areas of interest and enjoy the satisfaction of knowing more and better every day." 作為恒大新一員,潘教授認為自己面對哪些機遇和 挑戰?他分享道:「很高興在恒大踏入重要里程時 加入。資訊科技的學習範圍可以無窮無盡。科技 發展一日千里,而恒大開辦以資訊科技作為主修的 課程才數年,因此仍有許多發展空間。此外,電腦 的應用不限於通訊,也關乎為人類解決問題。舉例 說,STEM(包括科學、科技、工程及數學,並以資 訊科技為重要元素)教育旨在讓學生掌握四門學科 知識後,懂得融會貫通,應用於實際情況;而並非 學習單項科目。總的來說,資訊科技課程發展空間 甚大。」

至於挑戰方面,潘教授認為新科技不斷冒起,例如 人工智能和深度學習,因此,提升學術課程內容策 劃,有助因應學生和社會整體需要。他補充說:「多 聚焦實習和海外交流,可以令學生的學習體驗更加 豐富。」

潘教授指出全球爭奪資訊科技人才,無分疆界;他 們可透過不同渠道,展現本身的長處和優勢,例如 參加國際比賽。

若有意成為這門專業的人才,潘教授會給予他們甚 麼意見?他說:「想分享在多倫多讀書時的體驗。 校園內的多元文化背景固然令人印象深刻,同樣吸 引是學生進修的方法。他們全心全意投入感興趣的 範疇,無需跟別人比較或競爭,學習在於自我實踐。 因此,我也歸納了看法,認為應該專注於我最喜愛 及擅長的事。希望每位學生都能找到興趣所在,每 天增進知識,獲得滿足感。」

Professor Poon Chung Keung joined HSUHK at a historic moment. 潘忠強教授在歷史時刻加入,成為恒大一員。

Talking to Mr Steve Cheung on one of his usual busy work days, one can feel the energy and passion he demonstrated. Graduated from the HKALE Programme at Hang Seng School of Commerce (HSSC) in 1999, Mr Cheung recalled what HSSC had attracted him. "Since my sister was also a graduate of HSSC, I had already known about the freer learning atmosphere before joining. During my study, I experienced the close relationships between teachers and students, and treasured greatly the brotherhood and co-operation among fellow students. Some kinds of competition did exist but they were productive, encouraging us to do better."

Mr Cheung also took part in activities organised by the Students' Union. Some friendships began at HSSC last for a lifetime, and this is also true for certain soft skills such as effective communication, problem solving and time management. He then received a three-year full scholarship and studied in the United Kingdom for a bachelor's degree programme. Accounting is his favourite subject. He managed to achieve a good result in the public examination by self-study, further explored accounting and finance at HSSC, and chose it as his major at university. Now, he is a senior staff member of an international accounting and auditing firm. In his study and career development, Mr Cheung followed his being and chose what he found most exciting and interesting.

Accountancy seems to be a number-oriented profession but indeed it is also a people business. Mr Cheung shared, "Overseas study experience did put me in a favourable position in my career development. In international accounting firms, a multi-national work environment is very common in our profession, not only in handling clients but also working with colleagues. Equally valuable is my secondments in Tokyo and New York. Working with people of different cultures requires more awareness on their ways of thinking and mode of work." When co-operating with colleagues in Hong Kong, Mr Cheung also emphasised the need of people skills. He will try to look from others' perspectives and figure out the strengths and weaknesses of sub-ordinates. The essence is to enable everyone to excel oneself, build mutual trust among teammates and encourage team spirit.

As a career adviser at HSUHK, he strongly encourages the youngsters to grasp the opportunities to reach out, make more friends and gain experiences in different parts of the world. These can help them to broaden their perspectives and think out of the box. About career development direction, remuneration may be a factor for consideration but personal interests and prospects are also important. He believes that to a certain point of one's career, recognition, satisfaction and self-fulfilment are factors for working happily, rather than monetary returns alone. He added, "It may be difficult to make a very long-term plan and see the results. Why not aim at a shorter-term milestone, reach it and move onto the next?" Mr Cheung also believes that no matter in what position or role, a positive attitude is always one of the keys to success.

在一個工作天跟張亦希先生傾談,他忙碌如常,但期間仍感受到他那份活 力和熱情。張先生1999年於恒生商學書院(恒商)畢業,修讀香港高級程 度會考課程。回想恒商吸引他的原因,他說:「我的姐姐也是恒商畢業生, 入讀前已知悉那裡較為自由的學習氣氛。期間,我得以體驗師生間的緊密 關係,也非常珍惜同學之間的情誼,合作無間。競爭在所難免,但都是良 性互動,鼓勵大家更進一步。」

張先生也參與學生會的活動。一些在恒商建立的友誼延續一生,而從中學 懂的有效溝通、解決問題、時間管理等技巧,也一生受用。其後,他獲頒 三年全費獎學金,前赴英國修讀學士課程。會計是他喜愛的科目。他以自 修方式報考公開試取得良好成績,在恒商涉獵會計及財務,在大學主修會 計,現時晉身國際會計及核數師事務所,擔任高層人員。張先生一直了解 張亦希先生 恒生商學書院校友 畢馬威會計師事務所金融服務合夥人

會計專業看似只關乎數字,其實同樣以人為 本。張先生分享說:「海外留學經驗讓我在 事業發展方面,享有優勢。不同國家的專才 匯聚國際會計師事務所,這樣的工作環境在 會計專業很常見。無論是客戶抑或同事,都 非常國際化。我曾經外派東京和紐約工作, 這些經驗同樣非常珍貴。跟不同文化背景的 人合作, 需要更加留意他們的思維和工作模 式。」與香港的同事合作時,他同樣強調與 人相處的技巧,會嘗試從別人的角度出發, 以及找出下屬的優點及弱點。重點是讓每個 人各擅勝長,並且建立互信和團隊精神。

張先生是恒大職業導師計劃的導師,他十分 鼓勵年輕人爭取機會向外發展,認識更多朋 友,在世界各地親身體驗。這樣有助拓闊視 野,突破思考框框。至於事業發展方向,雖 然報酬或許是其中考慮因素,個人興趣和前 途也同樣重要。他相信事業發展至某個階 段,獲得認同和滿足感以及個人成就,都是 愉快工作的動力,而非單憑金錢回報。他補 充說:「制訂太長遠的計劃,也許難以看到 成果。因此,不妨先訂一個較短期的里程 碑,達致之後再訂下一個。」他也相信無論 積極的態度。

#### Mr Li Ho Ting, Kelvin

Bachelor of Science (Honours) in Data Science and Business Intelligence, HSUHK Business Analyst, Bank of China (Hong Kong) Limited

Among the first cohort of Bachelor of Science (Honours) in Data Science and Business Intelligence (BSC-DSBI) programme graduates, Mr Li Ho Ting, Kelvin thinks that the programme is relatively innovative when it integrates the studies of two key subjects. Kelvin has been fond of mathematics since childhood, "Mathematics is always my favourite. I had participated in Mathematical Olympiad, a way to test my ability in this subject." Did the programme

meet his expectations? "Yes but some modules were quite challenging to me. Probability was one of them." How did he manage to overcome difficulties? He recalled, "Thanks to HSUHK's small class teaching, we could seek our teachers' help easily when needed. Study platforms such as peer tutor programme and mentorship programme also helped as we could discuss and found answers to questions. Our teachers are very supportive and could always give valuable advice."

Apart from academic enhancement, Kelvin also learned transferable and useful skills during his study at HSUHK. "Through the programme, we could enhance our creativity, critical thinking and problem-solving skills which are equally important at the workplace, say, when presenting proposals and reports." Kelvin appreciates the University's crossdisciplinary common cores, "For example, the life and death module was very enlightening. It broadened my perspective on life and introduced to me some philosophical theories."

To enjoy his campus life to the fullest, Kelvin joined the Band Society as a committee member. He had learned classical music before. However, band sound was relatively new to him. Kelvin added, "It's an effective way to relieve pressure and meet new friends. I think that finding a new hobby is good for mental health and enables further self-development. Through a show held by the Band Society, I gained much useful experience in organising an event from scratch and learned how to sharpen my communication skills."

Though a new joiner in the job market, he found his previous internships at a bank and the Census and Statistics Department highly valuable, enabling him to adapt to the work environment more easily and acquire the necessary people skills and analytical ability. "Some say that a university is like a miniature society where one has to expose oneself to different situations. I found the actual society much more challenging and interesting. More adaptations and adjustments need to be made from time to time." Understanding that he is still green at work, Kelvin

prepares to have continuous learning. Last, he encouraged fellow students at HSUHK to pursue their interests during their campus life, a period in which they can enjoy more freedom.

#### 李浩霆先生

恒大數據科學及商業智能學(榮譽)理學士 中國銀行(香港)有限公司業務分析師

李浩霆先生是數據科學及商業智能學(榮譽)理 學士課程首屆畢業生,他認為課程結合兩門主 要學科,較為創新。對數學的熱愛,打從小時 候開始:「數學一直是心愛的學科。我也曾參 加奧林匹克數學比賽,藉此小試牛刀。」那麼, 恒大的課程是否跟期望相符?他說:「跟所想, 相若但給一些科目難倒,譬如或然率。」那麼, 他怎樣克服困難?他想了想說:「幸好恒大實施 小班教學,有需要時可以隨時請教老師。此外, 我們又可透過朋輩指導計劃和導師計劃等學習 平台討論功課,就問題找答案。老師非常願意 協助學生,時常給予寶貴意見。」

除了學術方面有所提升外,李浩霆在恒大也學 會可應用於其他地方的實用技能。「課程協助 我們發揮創意,培養明辨思維和解難能力。這 些技能在職場都很重要,例如計劃書簡介和作 出報告,便大派用場。」李浩霆欣賞恒大的跨 學系共同核心課程:「例如生死學,這門選修科 引發思考,讓我從更寬廣的角度觀看人生,接 觸一些哲學理論。」

此外,李浩霆加入樂隊學會成為幹事,讓校園 生活更添樂趣。他曾經學習古典音樂,流行樂 隊的音樂較為新鮮。他分享說:「夾 band 有助 減壓,也可認識新朋友。培養新嗜好既有益身 心,也促進個人發展。學會舉辦了一個音樂會, 籌備工作由零開始,我參與其中,獲得很多實 際經驗,也磨練了溝通技巧。」

踏入職場不久,李浩霆發覺以前在銀行和政 府統計處的實習經驗非常受用,令他易於適 應工作環境,掌握所需的人際技巧和分析能 力。「有人說大學是社會的縮影,我們會遇 到各式各樣的情況。我認為實際社會更具 挑戰性、更有趣,我們需要不時適應和調 節。」李浩霆明白自己年資尚淺,計劃持 續進修。最後,他鼓勵恒大同學在求學時 期這段較自由的時光,尋找和發展自己的 興趣。
