• Unique Programme Features 課程特色

Actuarial Studies 精算

Develop students' ability to apply blended skills in statistics, business and computing to design insurance products and maintain the financial stability of insurance companies.

培育學生，讓他們能靈活運用統計、商業及電腦等知識和技巧，為保險公司設計及分析產品，並確保公司財政穩健。

Insurance 保險

Provide practical insurance knowledge to prepare students to take up professional roles in back office of insurance companies. Talents in the areas of underwriting, claims, product development, etc are essential to support daily operations of insurance companies.

為學生提供保險實務，如核保、理賠、產品開發等知識。上述專業知識為保險後勤部門不可或缺的重要部分。

• Strong Market Demand and Shortage of Talent 市場需求及人才短缺

The insurance industry in Hong Kong is experiencing a rapid growth and in need of a continuous supply of young talents. The total gross premiums of Hong Kong insurance industry in 2019 amounted to \$580.2 billion, which is an increase of 9.1% over 2018¹. Despite the excellent career prospect that the industry can offer, there is a lack of opportunities for young people to understand the career paths of various insurance specialities. Also, the education on insurance professions cannot catch up with the fast development of the industry. As a result, the newcomers fall short in meeting the strong demand of human resources in the market.

香港保險業發展蓬勃，市場一直求才若渴。2019 年香港保險業毛保費總額為5,802 億港元，較2018 年增長9.1%¹。雖然保險業界能為年輕人提供良好的就業及發展階梯，但年輕人欠缺機會了解保險各個專業範疇以及其就業前景。此外，本地關於保險專業的教育未能配合行業快速增長，以致入行人手不足以滿足業界對專才的需求。
