## 藝術設計 (榮譽) 文學士

The BA in Art and Design Programme will integrate various disciplines for educating students in art and design as core producers of creative products and services - with fundamental courses in business, management, humanities and social science - and to train graduates in the “business of art and design” with sensibilities in social and business applications as well as technology. The programme will encompass four pillars of education components - creativity (studio teaching), history and theory, technology and business professional practice - and is uniquely designed to be different from other art and/or design programmes by integrating art and design with management and state-of-the-art technology.

藝術設計文學士課程將整合各種學科，教育藝術設計學生作為創意產品和服務的核心生產者 — 以商業、管理、人文和社會科學為基礎課程 — 對學生進行「藝術設計的商業」培訓，並提升其在社會和商業應用以及技術方面的敏銳度。該課程將涵蓋四個支柱的教育要素 — 創造力（工作室教學）、歷史理論、技術和商業專業實踐 — 並通過獨特的設計將藝術設計與管理和最先進的技術相結合，使其不同於其他藝術和/或設計課程。

## Programme Features

### 課程特色

#### **Integrative, Multi-disciplinary and Cognate Curriculum** 綜合性的跨學科 課程設計

The programme is unique in the sense that it aims to address the cognate issues of the art and design industry sector as a whole rather than with specific industries or individual disciplines, thus enabling students to apply their knowledge in whatever industries they may engage with later on in their career.

課程以整個文化及創意產業作為一個綜合性學科，教授一套可應用於各個藝術設計界別的專業知識和理論，而非強調個別業界的技能，培養學生多方面的潛能，以配合業界發展趨勢。

#### **Variety of Approach and Comprehensive Training** 多方位綜合培訓

Students will have exposure to different subjects, methodologies and approaches to learning. They will receive training with a business foundation for language proficiency and communication competence, and acquire comprehensive knowledge in the development and operation of art and design industries from inter-disciplinary perspectives.

學生將可涉獵不同學科的理論及治學方法，同時接受商業基礎知識、語言能力和溝通技巧培訓；更可從跨學科視野，增進對藝術設計發展及運作的知識。

#### **Field Experience and Interaction** 著重課程實踐

The programme attaches great importance to field experience. Students will have opportunities to engage in the art and design sector through exchange, placement and internship programmes.

學生有機會通過交流活動及實習計劃等，把從課程所學到的知識和理論學以致用。

#### **Industry and Institution Collaboration** 業界合作

The programme will build up collaborative partnership with companies, associations and institutions in art and design industry to promote student learning, research and practice opportunities.
