BA-AHCC - A NEW AND EXCITING DEGREE PROGRAMME IN COMPUTING
嶄新刺激的電腦學學士課程－BA-AHCC

From traditional software development to mobile computing, from e-commerce to artificial intelligence, Hong Kong is facing a shortage of software development expertise. Our programme aims to train computing professionals in the following areas:

Computing and Computer Science
Our programme provides solid training in computer programming, software development and related topics in computing. Students can also learn about the latest trend in computer science, including AI and e-commerce, and other areas in the frontier of computing and information technology.

Human-Centred Computing
Our programme provides supplementary knowledge of graphic design and human-computer interaction. Students will learn to develop software products that are user-friendly and attractive.

從傳統的軟件開發到移動軟件，從電子商貿到人工智能，本港現時軟件科技人才十分缺乏。本課程專注於培養學生以下的專業知識：

電腦學 (Computing) 及電腦科學 (Computer Science)
課程提供實用的程式編寫及軟件開發培訓，以及相關的電腦學科目。同時學生可以學到電腦科學的最新發展，包括人工智能，電子商貿及其他電腦學及資訊科技新領域上的知識。

人本計算學 (Human-Centred Computing)
本課程輔以圖像設計及人機互動 (Human-Computer Interaction) 等科目。學生可以學會開發出美觀實用並具競爭優勢的軟件產品。

Words from Our Graduates 畢業生的話

I am very thankful to this place, where I had lots of joyful learning experiences. I had a lot of opportunities to develop my talents. The valuable chances to visit banks and companies helped me get familiar with the current market. Last summer, I joined a cultural exchange programme and completed my internship. Albert Einstein once said, “Education is what remains after one has forgotten everything he learned in school”. I believe what we earned from this place is far more than what we forgot.

Chan Wing Yan, Graduate 2020

I am glad to have studied in the computing programme in the HSUHK. This pioneering programme was launched in 2016. Here, the professors provided me with a lot of guidance and opportunities to participate in internships and competitions. I am grateful for the support I got from the university. I enjoyed learning at the HSUHK. My studies here have been transformed into my experiences and better equipped me.
